**RE: THE CO-ORDINATING COMMITTEE FOR THE PEOPLE OF THE VOW [GKK]
// INVITATION TO SUBMIT WRITTEN COMMENTS AND REPRESENTATIONS //
PROPOSED AMENDMENTS OF THE PEPUDA ACT.**

1. We act on behalf of the GKK and are we instructed to submit the following commentary and representations on behalf of the GKK regarding the proposed amendment of the Pepuda Act.
2. Our client representing the Boer-Afrikaner People is opposed to the proposed amendment. The GKK is of the opinion that the proposed legislation is a steppingstone to the implementation of the New World Order (NWO), and may they not leave the proposed legislation unchallenged, by doing so they would be admitting the accusations of sin against themselves; betray their destiny as Protestant refugees to South Africa and their Vows to GOD Triune.
3. Our client's opposition is founded on the following facts and motivations:
 - 3.1.1 The ongoing threat to expropriate land in South Africa.
 - 3.1.2 The announcement of the outbreak of the COVID19 virus.
 - 3.1.3 The announcement of the outbreak of the COVID 19 virus in South Africa.
 - 3.1.4 The announcement of the national state of disaster on the 15th of March 2020 by the South African Government [Government] and the accompanying peremptory regulations governing the state of disaster promulgated on 18 March 2020.

- 3.1.5 The ongoing attempt by the World Health Organisation to create a cure vaccine for the virus. It is furthermore common cause and public knowledge that the ingredients of the proposed vaccine contain blood plasma cells from donors. The fact that the vaccine will become peremptory as set out hereunder is against our client and its members religion that *inter alia* prescribes that they are not allowed to fornicate their blood. The effect of the vaccine will exactly entail this.
- 3.1.6 The fact that the vaccine will become peremptory in South Africa in order to qualify for participation in the so called new normal national and international economy. The aforesaid calibrates with the Governments periodic public announcements of their proposed radical economic transformation that includes radical technological transformation. The proposed Official Identity Management Policy Act supports the aforesaid.
- 3.1.7 The fact that the vaccine component includes a track and trace electronic device [tattoo/Nano technology] that will have the ability to monitor and control freedom of movement per se further supports the proposed Official Identity Management Policy Act.
- 3.1.8 The device in 3.1.7 includes an identity implant technology that will become peremptory.
- 3.1.9 The Government's alliance and their financial dependence from and with the Republic of China, who already implemented the aforesaid measures and technology in their country.
- 3.1.10 the subsequent loans that the Government received from China in return for security of land and property. The Government thereafter admitting that they misappropriated these funds and other grants by way of corruption. These actions of the Government furthermore threaten the GKK'S rights as set out herein.

- 3.1.11 on the 27th of April 2018 the Government announced the initiation of the new proposed one world order and their support thereof. The aforesaid statement reflects the Government's intention to participate with the rest of the world.
- 3.1.12 the Government associate themselves with the World Health Organization [WHO], the Global Preparedness Monitoring Board (GPMB) and their protocols, which *inter alia* entail the following:
- 3.1.13.1 To conduct at least two worldwide training and simulation exercises, including one covering the deliberate release of a lethal respiratory pathogen.
- 3.1.13.2 To monitor the community's response and the various government's implementation methods of the imposed peremptory regulations.
- 3.1.13.3 The outcome thereof to be reported to the WHO.
- 3.1.13.4 The above monitoring process is applicable until September 2020.
- 3.1.13.5 The Government is a participant in the above mentioned ideal.
- 3.1.13.6 These ideals are nothing other than a biological warfare against all citizens with the primary objective to enforce the ideals of the new world order upon all citizens. These ideals are in contrast with the GKK's member's goals.
4. The aforesaid occurrences synchronize with the events as set out in Matthew 24 and the book of Revelations in that nations shall rise against nations, and kingdom against kingdom and there shall be famines, and pestilences, and earthquakes at various places. Our members will not acknowledge any other God, but their own God.

- 4.1 The ongoing attempt by the WHO, to create a cure vaccine for the virus seems noble, but when one analyses and consider the participation and relationship of the renowned information technology company Microsoft and the owners Bill & Melinda Gates with the World Health Organisation (WHO), then the following becomes evident:
- 4.1.1 The Bill & Melinda Gates Foundation is a funding organization based in Seattle, Washington USA and are they currently the world's second largest donor to the WHO.
- 4.1.2 They are guided by the belief that every life has equal value and does their foundation focus on improving people's health and giving them a chance to lift them out of extreme hunger and extreme poverty.
- 4.1.3 Their primary priorities are that they focus on discovering new insights to fight serious diseases and other health problems, developing effective and affordable vaccines and medicines and to deliver proven health solutions to those who need them most.
- 4.1.4 The WHO lobbies for a new world economy and entails that the world will become a new world order with a one world government. The Government support the WHO protocol and on various occasions officially announced that it supports the aforesaid ideals. The Government and its leadership support the United Nations, SADC, BRICS, G20, the Commonwealth and other international organisations, in order to participate in the international objection to form the NWO.

The fact that the Government is a role player and participant in forming this new regime, remains their prerogative. The problem is however that the GKK and its members are not allowed to participate in this goal and cannot be part thereof.

- 4.1.5 Although the idea of the one world order is an ongoing ideal, it became prominent in the modern era when the late President of the United States of America George Bush announced the initiation thereof on or during the Iraq war in 1991. The United Nations furthermore published a development plan in 2016 setting out various goals in order to achieve the objections of the one world order. One of the goals as set out in the development plan goal 16.9, specifically refers to radio frequency identification. This will entail electronic identity by way of a technological chip in the hand and forehead. The goal is that this form of identity will become peremptory for all citizens in the world by 2030. The proposed Official Identity Management Policy Act its goals and objectives clearly supports the United Nations development goal 16.9.
- 4.1.6 The current Covid -19 pandemic and the serious need of a vaccine will accompany the 16.9 goal as set out in 4.4.5 above, in that the cure vaccine for the pandemic will be in the form of a radio frequency identification. The logic behind this form of identification and accompanying vaccine is that each member of public will be chipped // marked and regulated in order to participate in public space inclusive of socio-economic activity (The new normal). The device will enable all citizens to carry personal identity, banking, and health details on this device. The aforesaid is also a goal of the WHO and the that of the Government in that they support this goal in reasoning that all citizens will remain safe in public spaces as a result of the ability of the device.
- 4.1.7 The GKK and its members are not allowed to participate in this regime as set out in the prophesy of Revelations 13, that state that all citizens on earth both small and great, rich, and poor, free, and enslaved, to receive a mark in their right hand, or in their foreheads and that no one might buy or sell, except he that had the mark. The GKK and its members are of the people

who are prohibited from taking the said mark. The proposed legislation clearly forms part of the mark and the new world order regime.

5. Our client therefore rejects the proposed amendment and confirm that none of their members will adhere to the purported proposed amendments thereof.

Yours Faithfully

MJ Lombard
